

# Attention Nortel Enterprise Customers!

Uncertain about the Future of your PBX?  
Aastra has a plan for you!

For a limited time, Aastra is providing Nortel customers a special offer on migration to our Clearspan® Unified Communications platform. This offer provides a special plan for North American Nortel customers to immediately migrate to the award winning Clearspan platform and start realizing the benefits of Unified Communications today while minimizing up-front costs, and business disruptions associated with deploying a new communications system.

## Worried about the migration process?

Clearspan provides a smooth migration path which allows enterprises to gain many of the benefits of Unified Communications today, while migrating at their own pace to the complete solution.

## Questions?

Please visit us at [www.aastrausa.com/nortel](http://www.aastrausa.com/nortel) for more detailed information on this unprecedented offer, or better yet contact us now to find out more about Clearspan and this special offer.

## The Offer

In order to help enterprises with the financial costs associated with migration, Aastra is offering the following:

- » All SIP integration trunks between Clearspan and the existing Nortel systems are provided at no cost (unlimited number of trunks)
- » Significant savings on all Aastra 67xi phones
- » Free instructor-led training for admins during the first year of deployment (up to 2 students per class)
- » Free end user, web based training for an unlimited number of users during the first two years of deployment

*Don't delay – this offer ends December 31, 2009!*
